

STARTZILLA 9024 XT

XT

Overview

STARTZILLA 9024 XT

cod. 829525

Multifunction electronic starter, power supply and tester, with LiFePO4 lithium battery for 12V/24V starting of cars, vans, small boats, lorries etc.

It performs control tests on the battery: voltage at terminals, starting capacity (CCA) and operational check of the vehicle alternator. The OVER RIDE function allows starting in emergency conditions when battery is missing (or completely down).

It is a stable and reliable power supply source for battery changes (SUPPLY function).

Robust and compact, it is equipped with high intensity LED light.

Protection against: polarity reversal, short-circuit, overvoltage (incompatible battery voltage), undervoltage (cut-off voltage), overcurrent, overheating, under-temperature, accidental contacts, alternator return currents.

Complete with starting cables and wall charge.

CE MARKING

EAC CERTIFICATION

Technical data

 CODE	CODE 829525	 START	STARTING VOLTAGE 12 / 24 V	 DIMENSIONS	15,5 x 23,4 x 31,8 cm
 V _{PH}	MAINS VOLTAGE 100 - 240 V	 A _{START MAX}	MAX STARTING CURRENT 9000 / 4500 A	 kg	WEIGHT 4,33 kg
 G	null 31200 mAh	 IP	PROTECTION DEGREE IP43	 BAR CODE	EAN CODE 8056151814623

Included Accessories

MULTI PLUG POWER SUPPLY - 169999
